SUMMARY

MERN stack developer with hands-on experience building full-stack web applications using React, Node.js, Express.js, and MongoDB. Skilled in RESTful API development, secure authentication, authorization, role-based access control, responsive UI, API integration, debugging, and performance optimization. Experienced delivering client projects through Fiverr with a 4.8-star rating and Level 1 badge. Seeking a junior frontend or full-stack developer role.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), HTML5, CSS3
Frontend	React.js, Tailwind CSS, Responsive Design, UI/UX, DOM Manipulation, Framer Motion
Backend	Node.js, Express.js, RESTful APIs, API Integration, CRUD Operations, MVC Architecture
Database	MongoDB, NoSQL, Database Design
Auth & Security	Firebase Authentication, JWT, HTTP-only Cookies, Protected Routes, Authorization, RBAC
Tools & Concepts	Git, GitHub, VS Code, React Query, Axios, Debugging, SDLC, Error Handling, Performance Optimization

PROJECTS

LoanLink - Microloan Management System | *React, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, Firebase, React Query, Stripe Demo, Framer Motion*

Live Project | [GitHub](#)

- Built a full-stack MERN microloan platform for loan requests, approvals, tracking, and role-based workflows.
- Implemented secure Firebase + JWT authentication with HTTP-only cookies, protected routes, authorization, and RBAC for Admin, Manager, and Borrower users.
- Developed borrower features including loan application, tracking, cancellation, manual loan selection, and Stripe demo application-fee payment.
- Created manager/admin dashboards for approving or rejecting applications, managing users, adding loan products, and controlling system data with CRUD operations.
- Integrated search, filtering, dynamic dashboard fetching, caching, and UI state updates using React Query.
- Delivered responsive UI with dark/light mode, animations, mobile-first layouts, and optimized user experience.

Zep Shift - Parcel Delivery & Logistics Platform | *React, Tailwind CSS, Firebase, React Query, Axios, Leaflet*

Live Project | [GitHub](#)

- Developed a parcel delivery and logistics web application for booking, tracking, and delivery workflow management.
- Implemented interactive map-based parcel tracking using Leaflet and location-focused UI components.
- Built secure Firebase authentication, protected routes, user dashboard, and rider portal for delivery workflows.
- Integrated Axios and React Query for API handling, efficient data fetching, caching, loading states, and error handling.
- Built responsive mobile, tablet, and desktop UI with animations and optimized UX.

EXPERIENCE

Freelance Web Developer - Fiverr | *Global Remote* | 2023 - Present

- Delivered web development and SEO optimization services to international clients with direct client communication and requirement gathering.
- Built and customized websites using Shopify, WordPress, Wix, and modern JavaScript technologies.
- Managed scope, timelines, revisions, debugging, and delivery while maintaining a 4.8-star rating and Level 1 seller badge.

Customer Care Service Officer - Grameen Phone Ltd | *Amberkhana, Sylhet* | *Onsite* | Jan 2026 - Mar 2026

- Handled customer queries, complaints, and service-related support in a fast-paced customer-facing environment.
- Maintained customer satisfaction and service quality through communication, issue resolution, and professional support.

EDUCATION

BSc in Computer Science & Engineering *Sylhet International University* | *Ongoing*

Diploma in Computer Technology | *Sylhet Polytechnic Institute* | *CGPA: 3.46* | 2024

COURSES

- Web Development - Programming Hero
- Digital Marketing - One Man Solution
